COUNTY OPTION IN THE BALANCE

**Senators Haggles and Vote on Proctor
Amendment to Change Unit
is Delayed.**

3 AMENDMENTS TURNED DOWN

**Predicted Democratic Measure Will
be Passed by Straight Party
Vote, 29 to 21.**

[Special to the Daily Republican.]

At 4:15 o'clock this afternoon, the amendment to the county option bill, providing that the unit shall be incorporated cities, townships and townships outside of incorporated cities, instead of the county, had not been put to a vote in the Senate in session in Indianapolis. The measure came up for third reading at two o'clock this afternoon and two hours were allowed for debate pro and con. Many strong speeches were made both for and against and three amendments were introduced by Republicans, affecting to change some feature of the proposed amendment, but they were all voted down by the straight Democratic vote, 29 against 21 Republican votes. It is predicted that the amendment will be pushed through late this evening before adjournment, by the same vote, 29 to 21.

The Proctor amendment came up for a third reading promptly at two o'clock. Senator E. E. Morre of Connersville offered an amendment, which in substance was about the same as the one which he introduced to the same measure yesterday. After he had finished his speech in introducing it, a vote was taken and resulted in the same old figures, 29 to 21, which is a party vote. Two other amendments, proposed by Republican senators, designed to change the Proctor amendment to some extent, were turned down by the same vote. For that reason it is generally believed

**Today's Session of the Legislature
Attracts Attention.**

The legislature is attracting the attention of many local people. Today's session of the Senate promises to be an interesting one, as the Proctor amendment to the county option law comes up for a vote. Two of the county officials, County Auditor Stone and Treasurer McBride, besides several others from here were in attendance.

WANT PORTION OF TOWNSHIP FUNDS

**Farmers Trust Co. Files Petition to
Mandate Orange Officials, Milroy
and Peoples National Banks.**

QUESTION OF DEPOSITORIES

The Farmers Trust Company of this city, recently organized, filed a petition to mandate the Board of Finance of Orange township, James T. Thrall, Reuben Fisher, John Hungerford, advisory board of the township; Charles Owens, trustee of the township; the Peoples National Bank of this city and the Milroy bank of Milroy. It is alleged in the complaint that the local trust company qualified as a public depository for the township's funds, along with the other two financial concerns which are mentioned in the suit. The plaintiff declares that the board of finance of the township met on December 26, 1910, and voted not to place one cent of the township's funds in the Farmers Trust Company of this city. It is alleged that the board decided that the funds should be placed in the Milroy bank and the Peoples National bank. The plaintiff maintains that it is entitled to a share of the funds since it was a qualified bidder.

**Expensive Books and Useless Blanks

Accounting Law.**

WAS ENGINEERED BY DEHORITY

**Local Instances of How Law Has
Saddled Bib Expense on Every
County in State.**

One feature of the accounting law that has not been given the attention it deserves is the fat picking it affords to Indianapolis and other printing supply houses who always stand in to win.

The preparation of blanks and books were in charge of Marshall's man Dehority and the public can take it for granted that he worked it so that the printers got a big pull from every county in the State.

Without going into details it may be stated that bound books are charged according to the size of leaves and the larger they are the proportionately larger is the charge, per additional inch.

In the office of County Auditor Stone is a book measuring five feet two inches when open. The old books are hardly more than half the size of the new. One feature is worth special mention. In the old book there is a debit and credit column side by side so that both items are directly under the eyes of the bookkeeper. In the new book, these most important columns are separated being just fourteen inches one from the other and on opposite sides of the binding fold of the books rendering mistakes in figures far more likely.

The system is greatly different from that now in use and is more or less complicated. It will also make a great deal of work for the auditor, who will have to copy all his present books to get the new ones opened. To complicate matters the book makers are behind with their orders and it will probably be some time before the books can be had.

In blanks, too, the big printers have a good thing. Contractors' bids are fully half or more blanks but are spread out over two sheets, being double the size of the old blanks in use and costing just four times as much as the last lot of old blanks.

But the worst of it is these blanks are useless as owing to the blundering or worse of Dehority or some of his clerks no sane business men would sign the conditions they set forth. Here is a sample:

" * * * that this bidder has not offered to or received from any other person, firm, board, commission, trustee or corporation since October 1, 1909, a less price than that stated in the attached proposal for the (article, materials or work) therein specified when the bid has been for like amounts, * * *

The contractor for supplies for various county purposes has to swear to the statements made in the contract. The above was presented to a coal bidder in another county and he very properly refused to make oath to a falsehood so the high priced blanks had to be thrown away and the cheap ones made at home, which cover every necessary point, was substituted, else no contract could have been let. It can be readily understood that if coal increased in price, since October, it could not now be sold for what it was then, hence the coal bidder could not honestly sign the blank form.

OPEN NEW TERM IN HIGH SCHOOL

**Students Start Real Work of Second
Semester Today After Promo-
tion of Yesterday.**

THE TOTAL ENROLLMENT IS 234

**While Other Cities Are Complaining
Rushville Has Ample and Mod-
ern High School Building.**

Rushville high school began a new term, the second semester of the year, today. Yesterday was really promotion day and little work was done other than arranging for the classes and learning the new books which will be used the remainder of the school year. Twenty-one pupils were passed into the high school from the eighth grade and were pointed out as the "green Freshies" yesterday by all the very important "upper classmen."

Besides the eighth-year pupils, four others entered the high school from other places, so that the total enrollment has been increased to 234. This is a near record for high school enrollment, and, while other cities are complaining about poor accommodations for their high school, Rushville high school students should be thankful for the commodious, modern and up-to-date building, in which they have the right to attend school.

A very few Seniors had credits enough to graduate at this time, but he high school has already established the precedent of only one graduating class a year so that those who have enough credits at the end of the first semester may drop out or go on and take extra work. All of the students are doing that this year, as most of them must complete their year of physics before they can get their diploma. Physics is required and it has never been given until the Senior year. This year, the right has been granted to a few students to take the required study a half year in advance so that they may stop at the middle of next year and then come back and graduate in the spring with their class. Few students desire to graduate at mid-year, since it is not very convenient to enter a college or university at that time.

The Senior class this year promise to be up to the standard, both in number and quality, at present it seems that about thirty-five will be given a "sheep skin" from the high school, which will entitle them to enter most any university or college in the land. James Turner, the son of the Rev. and Mrs. Turner, has been elected president of the class.

Four new students, beside the eighth-year graduates were enrolled in the high school yesterday. Ben Humes, son of Mr. and Mrs. Elmer Humes, a former student, resumed his work yesterday. Raymond Wilcox of Gwynneville, also a former high school student, came back yesterday and expects to graduate this spring. Belfield Darnell, who has been in Georgetown University in Kentucky, also entered high school yesterday. Earl Mabry has finished the work in the Washington school and came into the high school as a Freshman.

**Will be in Full Blast Within Next
Two Weeks.**

The farmers' public sale season is beginning to take on activity and in the next two weeks will be on in full blast, and before the rush of spring work puts a stop to the sales thousands of dollars worth of property will have changed hands. Public sales have become very popular in this county and their number increases each year.

PRIZE AWARDED TO FREDA HINER

**Winner in Rush County Spelling Bee
Presented With a Five Dollar
Umbrella by Bliss & Cowing.**

ALL REPORTS NOT RECEIVED

Miss Freda Hiner, the fourteen-year old daughter of Mr. and Mrs. John Hiner, who won the county spelling contest, also won a five dollar umbrella given by Bliss and Cowing. This firm offered the umbrella as a prize to the girl who won the contest, and if the winner had been a boy he would have received a suit of clothes.

Arrangements are being made to take the three best spellers, Freda Hiner, Nellie Woods and Gladys Titsworth, and the alternates, Marian Sparks and Marie Pitts to Connersville February 18 for the district contest.

The reports of all the counties in the Sixth congressional district are not all in and it is more than likely that some of the counties will not be represented in the district bee.

Mr. and Mrs. W. J. Waite of Connersville will move here in two or three weeks. Mr. Waite has accepted a position in the Wolcott drug store.

Mrs. Robin Red Breast Spends Her Winters in Rushville

A lot of people have wondered why this winter has been so very mild; why spring weather has been prevalent most of the time and why the rains have been more frequent and of longer duration than the snows. Here's the reason:

A robin red breast, the kind that is always a harbinger of spring has been abiding in Rushville all winter. She has been taking her meals here, sleeping here and in fact enjoying a life right here in Rushville on the coldest days that have passed this winter.

Mrs. Robin Red Breast, who seems to be truly a remarkable bird, resides at the home of Miss Alice Kennedy at 522 North Harrison street. She was first noticed by Miss Kennedy shortly before Christmas and then the lady of the house was somewhat surprised. She believed that she would depart for the Southland soon and flee from the northern winters.

But not this robin—she was here to stay and stay she did. When Mrs. Kennedy finally decided that Mrs. Robin was determined to remain during the winter, she began to make arrangements for her comfort. She fed her, but she soon found that she need not do even that. Mrs. Robin seemed to have a way of her own for seeking out her own existence during the cold days.

Close observation showed Miss Kennedy that Mrs. Robin had a regu-

FIRE DESTROYS COUNTRY HOME

**The Residence of Mr. and Mrs. Alva
Swain in Sumner is Burned to
Ground Today.**

THE LOSS AMOUNTS TO \$3,000

**Hot Stove Believed to be Origin of
Costly Blaze—Family Away
From Home.**

Fire, the origin of which is rather mysterious, destroyed the beautiful country home of Mr. and Mrs. Alva Swain in Sumner, southwest of Arlington, about noon today. The blaze was discovered by neighbors and the family, which was away from home, arrived in time to save only a small portion of the household goods on the first floor. The whole structure and all of the articles on the second floor were burned up at a total loss, estimated at about three thousand dollars. The loss is only partially covered by insurance.

Mr. and Mrs. Swain and their family have been residing with his mother, the widow of the late Alfred Swain, who died a few months ago, at her home there in Sumner. Their house has been closed, but today they planned to return to their own home to live. This morning Mr. Swain went to his home, opened it all up, lit the fires and prepared for the family to return this afternoon. Instead, they returned about noon today to find the house in ashes.

It is generally believed that Mr. Swain left the gas burning too high and that the fire caught from the stove. As soon as persons arrived, they could plainly discern that the blaze had originated in the sitting room. Mr. Swain declares that he did not leave the gas burning very high and that, if the fire started from that source, the gas came on after he left.

Wedding and Dinner Bells Jingle in Perfect Harmony

It has always been said that Cupid lurked around the Indianapolis and Cincinnati Traction company's general offices here but it compares with the Ross boarding house at 206 West Second street about like summer does to winter. The marriage of Mrs. Nora Wolf and William Eck, which will take place this evening, brings to the light of day the fact that Cupid has been busily engaged at the quiet little home of homeless men and husbandless women, that there is hardly any comparison between the two. Marriages have been so common there within recent months that they have become noticeable and the owner of the boarding house might become independently wealthy, if she were to change the style of her sign and make it "Matrimonial Bureau."

Mrs. Nora Wolf came here from Osgood last April and has been employed as cook at the boarding house. Shortly after taking up her abode at the Ross house she met William Eck, who came here from Illinois four years ago and has been employed at the I. & C. power house since that time. It was a case of "love at first sight" and just as soon as the couple had their home prepared, they took the rash step—bought the marriage license.

Mrs. Wolf and Mr. Eck will repair to their newly-furnished home in East Seventh street after the wedding this evening. They will prob-

ably start in the morning on a two weeks' honeymoon trip over the State, where they will visit relatives. Mrs. Wolf, before her first marriage was Miss Nora Jenkins. She is 32 years old, while the bridegroom is 35. The Ross House boarders are profuse in their praise of her ability as a cook and envy Eck, who took the cook from them. The new cook who took charge today is of a marriageable age and if she proves the equal of Mrs. Wolf, boarders there are who predict that she will not remain in the single class long.

But of this Cupid-lurking business. Other marriages that have taken place while either one or both of the principals were boarding at the Ross House are: Mrs. Edith Murray and Guy Mulbarger; Miss Cecil Ross and James Foley; Miss Marie Lock and Nole Newkirk; Mrs. Ione Gosnell and Joe Houston; Miss Lena Neff and Roy Coe; to say nothing of Mr. and Mrs. Julius Ham-brook, who were reunited. One boarder was not there long enough for his last name to be learned, Cupid shooting his fatal darts in two weeks' time.

The boarders have a "hunch" that the wedding bells may be jingling there again soon. Several are suspected. Who will heed the call of Hymen and join the ranks next, no one knows.

lar routine of life. She "loafed" around in the chicken yard with the hens most of the time during the day, eating food placed out for them whenever she was hungry. At night she seeks the shelter of the smoke-house for her bed. When Miss Kennedy learned the details of her daily routine, she did not disturb her, but allowed her to live in peace. She noticed that the robin never flew very high, but she occasionally took a little jaunt over the neighborhood for a little airing and exercise. But she has also found that Mrs. Robin never failed to return at bedtime and meal time.

It is very possible that Mrs. Robin has enjoyed a winter in the north and that she may have many strange tales to recount to her mates when they return from the southland in the spring. She may induce many of them to seek abode in Rushville next winter, after her very happy experience and Rushville may be spring all the year around. With more robins would naturally come more spring weather.

DO YOU GET YOUR MONEY'S WORTH?

Every day buying is becoming more of a science.

To buy the right kind of goods at the right prices requires discrimination and care—anyone can rush out and buy any old kind of goods from the first dealer he finds.

Some people fail to get the most for their money when it comes to buying their supplies, but are very particular about unimportant matters.

A great help in this direction are the advertisements of the merchants.

Before visiting the stores one can make the task comparatively easy by securing a great deal of information from the announcements of the dealers.

Then shopping can be more intelligently done.

A dealer's sins will sooner or later find him out if he makes a misstatement in his advertisement, and you may depend upon it that he can not keep it up for any great length of time.

It will lose him trade.

The dealer can not afford to misrepresent. He tells the public exactly what he has to sell and explains in honest terms the value of his goods. He is worthy of your confidence and can be depended upon implicitly. This dealer regularly makes his announcements through the columns of the newspapers.

Advertising is the searchlight which reveals true character and only the truth alone can stand regular advertising.

It will pay you to read the advertisements.

CHANGE PLAN OF DEFICIENCY FUND

Bill Backed By Governor and Educational Board.

OBJECTIONS TO OLD METHOD

Indianapolis, Jan. 24.—To change the present law concerning the distribution of the so-called "deficiency fund" of the state school revenue, by which corporations which fail to collect sufficient revenue to carry on their schools for the length of time required

by law are aided by the state treasury, a bill which embodies the views of Gov. Marshall, Charles A. Greathouse, state superintendent of public instruction, and the state board of education, of which the governor is ex officio member, has been prepared.

Under the present law the common schools must be maintained for at least six months every year. When a school corporation levies a tax of 20 cents on the \$100 of taxables and does not raise a sufficient amount to carry on the school for six months, it is entitled to aid from the state "deficiency fund." When the corporation desires to carry on its schools for seven months, it shall levy a tax of 35 cents, and if that does not raise sufficient revenue, then it shall be entitled to aid from the state to carry on its schools for seven months. Three per cent of the total amount of the state school revenue is now set aside by the auditor of state for the "deficiency fund."

The Bill's Provisions.

The bill which has been drawn provides that for six months of school the school corporation shall be required to levy a tax of at least 40 cents on the \$100, while such corporations wishing to maintain school for seven months shall levy a tax of at least 50 cents. The bill provides also that 5 per cent of the total tuition fund in the state shall be set aside for the "deficiency fund."

In order to benefit by the "deficiency fund" under the proposed act, the school corporation must not only have followed the provisions of the act as outlined, but must pay the teachers no more than the minimum wage now determined by law for teachers in the common schools, and must pay its high school teachers its employs wages not larger than a sum to be fixed by the state board of education. In distributing the "deficiency fund" annually, on March 1, the state superintendent

of public instruction, who is placed in charge of the distribution, shall be required to make the distribution according to the ratio of the individual school corporation's requests to the total amount of such assistance asked.

Distribution by Ratio.

When Robert J. Ale, who preceded Mr. Greathouse as superintendent, made his first distribution under the provisions of the present "deficiency fund" act, he introduced the feature of distribution by ratio. Formerly the distribution had been made according to the demands as they had been received, and such manner of distribution resulted in a shortage of about \$60,000, which is still due a number of teachers in the southern part of the state. Under Mr. Ale's distribution was not sufficient to carry all the schools to the close of the six or seven months' terms which they had determined on, and all schools thus obtaining help were cut short in their terms by one week, but no shortage from the fund distribution was permitted and all teachers were paid for all work done by them.

It was found at that time that formerly township trustees and town school corporations had been paying wages, in some places far in excess of the minimum wage law provisions.

Local Forestry Boards.

In order that forestry association boards in each county, city, town or township of the state may be incorporated for the purpose of acquiring and holding public forests for the benefit of the communities, the Indiana Forestry association will cause a bill to be introduced in the legislature which would make provision for such boards. The bill would permit local forestry boards to accept contributions from county commissioners, common councils or town boards of trustees for the purpose of acquiring and preserving public forests, so as to produce trees suitable for lumber and other purposes and for reforestation. The bill provides that the board may permit the forests to be used as public playgrounds and for picnic purposes. It is specified that every association shall name in its articles five persons interested in the subject of forestry as the forestry board, and that each board shall choose its officers, including a forester, fix their duties and require bonds for the performance of such duties. On the death, resignation or removal of any member of such board the members remaining shall select some fit person to fill such vacancy, and members of the board shall serve without compensation and hold during good behavior.

SENATOR GAMBLE

South Dakota Statesman
Defends Senator Lorimer.

GAMBLE DIDN'T LIKE BRISTOW'S QUERIES

South Dakotan Accuses Kansan of Impertinence.

Washington, Jan. 24.—A large part of the senate's day was taken up with a discussion of the Lorimer bribery case. Senator Gamble of South Dakota defended the Illinois senator. Mr. Gamble is a member of the committee on privileges and elections, whose report cleared the Illinois man and declared that he held his seat by a valid title. Senator Bristow of Kansas harried Senator Gamble with a good many questions, and the South Dakotan finally accused Senator Bristow of being impertinent. Senator Flint of California delivered a long speech in opposition to the Cummins resolution, which is designed to pave the way for the revision of the tariff schedule by schedule.

Further consideration was given the postoffice appropriation in the house. The effort made by the western members to secure more pay for railway mail clerks failed. An amendment was adopted prescribing the use of steel cars in future contracts made for the transportation of the mails. The bill will probably be passed before adjournment today.

Waiting For Him.

"Yes, mum," said Poetic Pete as he twined an autumn leaf through his buttonhole. "I am a great lover of the romantic. I stopped at his gate because I saw de sign 'Idlewood.'" "You did?" approved the housewife. "Well, there is a lot of idle wood down at the wood pile. Just take this ax and split up half a cord."—Chicago News.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch.

Because—D. D. D. starts the cure at the foundation of the trouble.

Because—It cleanses, soothes and heals the skin.

Because—It enables Nature to repair the ravages of the disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.

Drop into our store today, just to talk over your case with us.

The Spelling Contest.

(Marion Chronicle.)

It is to be hoped that the county spelling contest not only will benefit the students that took part in it, but that it will interest the public in spelling, and work an all-around benefit. This is the purpose that the state superintendent of public instruction had in mind when he suggested spelling contests.

Forty years ago spelling was a requirement of public schools. Then for years it dropped out, and Indiana has reared a generation of graduates from the common schools who can not spell many of the most simple words in everyday use. "Which" is spelled with a "t." "Disappear," is spelled with a double "s" and a single "p." "Separate" is spelled with three "e's." One of the first requisites of a newspaper man is to be able to spell, and every cub reporter has to take a course in the Hardknox school of spelling before he is worth his salt. Deficiency in spelling has cast a reflection on the public schools of Indiana that the schools do not really deserve; and if the spelling contests do no other great good, they at least may put the schools in a better light with the spellers of forty years ago.

Spelling is not a science, at least not to most of us. It is simply a proposition of memorizing the letters that go to make up different words. The phonetics of spelling furnish only a poor guide. English has acquired so much of so many different tongues that a word that is pronounced "shofer" is spelled "chauffer," while the war in South Africa gave us "trek" for our everyday vocabulary, and aero navigation has given up "aeroplane."

One must memorize his letters unless he can study out a system for spelling of his own. And when there have been cases of "systems" for spelling, it has often been found that to memorize the system is as great a task as to learn the spelling without it.

For example, not so long ago a minister brought in an obituary in which traveling was spelled "travelling." The word was spelled with a single "l" in the printed article. The minister objected, saying that a short vowel takes a double consonant. The dictionary showed that the double "l" was right, but the single letter was preferable. And so the minister's rule was disproven. That rule, however, is actually a help in many cases. The only difficulty is to remember when to and when not to apply it.

It is claimed by political demagogues that the protective tariff system which bars foreign merchants from our country, has barred us from the markets of the foreigners. Such assertions are made regardless of facts as to the foreign trade of the United States as developed in the last sixteen years, during the time in which the protective tariff has been in force. The figures are easily accessible, but the demagogue does not want enlightenment in that direction. It would make him useless.

In 1896 the foreign trade of the United States was \$1,600,000,000. In the last four years the average has been over \$3,000,000,000. All the details show a general gain. Agricultural exports in 1896 were \$569,000,000, but in the last ten years have averaged \$900,000,000. In the same time mining exports have increased from \$20,000,000 a year to \$50,000,000. Exports of manufactures have

had an immense expansion from \$228,000,000 in 1896 to over \$800,000,000 in 1910, an aggregate never reached before. Foreign sales of American manufactured articles have quadrupled under the two protective tariffs in force since 1896. This plainly shows that barring the foreign merchants from our markets has not been detrimental to this country in the least.

The new books and blanks to be used under the accounting law seem to be very unpopular. They are complicated, too large and unwieldy for the purpose and withal very expensive. In the preparation of the forms which was supposed to have been done by Dehority, the fine hand of the Indianapolis printing supply houses can be seen. The books and blanks, it seems, were not designed with a view of simplifying the bookkeeping, but to get up blanks that are difficult to produce by the local printer.

As far as Rush county was concerned, these supply houses had it all their own way. But in most of the counties in the State the local printers were given a chance to furnish at least a part of the supplies. Now it is flat picking for these printing supply houses from every county in the State.

If the new Democratic Committee on Ways and Means is for free trade let it say so promptly and squarely. In case it is for protection in any degree the party must propose to shift its position to Republican ground.

EDITORIALETTES.

The crew of the Indianapolis Star wants to know what is the style of the clothes of day and we would reply that it is a gray broadcloth with a reddish tint, cut on the horizon and in a knightly shape.

The New Castle Courier says that it listens like January thaw No. 2 but Rushville's thaw even has something on Harry K. for it has just "shot the weather all to pieces."

An exchange talks sensibly when it says that a man who leaves his horse unblanketed and the barn door open, generally may be found around a roaring fire.

Greensburg has already had a "fit" over the shoe factory, which they have just managed to "boot" into their city and it is to be hoped that it will "last" 'em for a while.

We snatched part of the above from an exchange. Hope that Greensburg will not blame us for it.

Correction—The Daily Republican of yesterday stated that Casper Johnson, whose barn was invaded by robbers Sunday night, lived four miles west of the city. Mr. Johnson really lives only three and one-half miles from town, but we were crowded for space yesterday and cut everything short.

Charity begins at home, so it is said. Frequently it ruins its health by not getting enough fresh air.

AULT WOULD DO AWAY WITH BOARD

Bartholomew Representative Believes
Advisors to Township Trustees
Are Absolutely Unnecessary.

PRESENTS BILL TO ABOLISH

Declares Their Duties Could be
Transacted by Trustees
With Ease.

Representative Ault of Bartholomew county, is still in the abolishing mood and he has introduced a bill in the general assembly to abolish the township advisory board. He would have the duties of the township boards transacted by the township trustees.

This is the third "abolishing bill" introduced this session by Representative Ault. He has already introduced measures to abolish the office of truant officer and to abolish the county council. If he keeps on there is no telling but that he may abolish the offices of representative, senator, governor and so on.

Representative Ault has served as truant officer of Bartholomew county and he has also served as trustee. He ought to be familiar with the workings of both offices and he evidently thinks there is no need of either a truant officer or an advisory board.

The township advisory boards are composed of three members and they serve in each township in the county. The board acts in an advisory capacity, assists in making the township tax rate, audits the accounts of the trustee and has a few other minor duties. The members of the advisory boards draw \$5 each as a yearly salary.

WANT TO LICENSE THE FISHERMEN

Bill to Tax Each One \$1 Apiece Has
Been Introduced in the
Legislature.

PROVISIONS OF THE MEASURE

A bill providing for the licensing of fishermen at the rate of \$1 apiece, designed to raise revenue for restocking the streams of the State with fish, has been simultaneously introduced in the house and senate by Representative Buenagel and Senator Hauck. The license also entitled a man to hunt, being in this respect a combination fishing and hunting license. The State licenses hunters now, but this is the first effort to license fishermen.

The bill provides that the father of a family is not required to take but one license for himself and family, provided he has no boys over 18 years of age, in which case the boy or boys must have separate licenses.

At present the hunting license fees go to pay the expenses of the fish and game commissioner's office. The new bill will provide an addition revenue, which the fish and game commissioner is permitted to spend at his discretion for the perpetuation of hunting and fishing privileges.

Gives Panoramic View of Country in Trip Across States

C. W. Smith Describes Delightful Journey Through
Kansas and Oklahoma, Telling of Crop Conditions and Other Interesting Things

Phoenix, Ariz., Jan. 21: Having a little leisure time on hand and thinking you would give space for a scribble from this western town I thought I would write the Republican a letter. I left Indianapolis the day after Thanksgiving, hurried across to Topeka Kan., and stopped off to visit friends and relatives in and around the city. On December 1st we took a carriage ride out to Auburn one of the oldest towns in the State. It was staked off for the Capitol juts before Topeka was founded.

There is a heavy crop of corn along the Kansas River, but wheat will be a failure in this part of the State on account of the dry weather ever since seeding time. On December 20th we boarded a Rock Island train, going in the direction of El Paso and as far as Herington, Kan. There we switched off and went direct south down through Wichita and on to El Reno, Okla., on the Memphis branch of the Rock Island system about 700 miles due west of Memphis.

There is some good country around this place good crops of coffee, corn, alfalfa, and cotton. There is a great many colored people southeast of this place, one town that is all negroes. All the rail road stations have waiting rooms (for colored people) in one end of the depot.

There are no colored porters on the local trains, while the overlands are well supplied with colored porters.

Guthrie has lost out as a Capitol City. Oklahoma City is now and will be henceforth and forever the capitol. The city is well built. A few of the buildings are twelve stories high. The Morris company of Chicago has established stockyards and a big packing plant there. Everything is of the best and up-to-date. They employ 300 men.

On Dec. 30, I resumed my journey westward down to Tucumcari in the east edge of New Mexico and then got on the main line of the Rock Island, thence to El Paso on the Southern Pacific Road. I went on the Southern Pacific to Manicoba, 40 miles south of Phoenix and switched off for the capitol of Arizona.

Phoenix is a bum town with sage bush, cactus and Mesquite bushes in the state-house yard. The State house is about as large as the Rushville court house. It looks more like a college building than a Statehouse. The town is fairly well laid out with common width streets on compass lines with low square buildings, very few being more than two stories high.

There will be a territorial election the 9th of February to decide on the proposed constitution for the new State, but there are so many conflicting interests at stake it is doubtful whether it carries.

Orange and alfalfa are the principal crops of this locality. There are a good many cattle grazing on alfalfa

pasture as no other grass does so well.

We visited the Indian school three miles out on the street car line. There are 700 children in the school, all well clothed and well drilled.

It rained about one inch Friday. It made all the people happy as there had been no rain here for several months. This morning's blue sky overhead and a dazle of sunshine on the mud tempted the people to venture out on the street, but it was almost impossible to get anywhere on account of the deep sticky mud. I think this dozy soil would make good sun dried brick.

We will go on to Los Angeles next week, will write more when we see that old Spanish town.

Harness, Light and Heavy

Made out of the best oak and tanned by Mooney Bros., at Columbus, Ind. This is the best leather made on earth today. This is no lie I have built harness for the standard Oil Company. You can see them on their teams at any time. Four sets of my harness go to Texas. The price is \$60.00 a set. I will guarantee the harness to last 15 years, if you take care of them. Pipe and Chain Harness on hands at all times and at any price you want them. You had better get the best for they are the cheapest.

I am building better harness for the money than any firm in the State, hand made. I want you to come and see them before you order. Sam Young says he used a set of harness made by me, for 25 years. Sam says they will last ten years longer. You know Sam won't lie.

AMUSEMENTS

The Palace theater will have a complete change of program tonight.

The Star Grand offers one of the Great Northern Film Company's fine dramas tonight entitled "The Red Light." It is a particularly fine military drama of the Russo-Japanese time of war, a fine production of unusual fascinating interest, the stage settings and costumes being magnificent. Earl Robertson will sing "When I Gathered the Myrtle With Mary."

The Vaudet management will have a big and elaborate program tonight with the usual two reels. The first film is an Imp and contains two subjects, "The Hobble Skirt," a comedy, and Mendelssohn's Spring Song," said to be a drama of intense interest and replete with exciting situations. The Itala film also contains two pictures, "The Man Suffragette," a rich and racy comedy, and "The White Lie," a drama which is claimed by the management to be on the same level with the Imp drama. A new illustrated song will be on the program.

The coming engagement of Marie Dressler in Lew Field's production of "Tillie's Nightmare" at the Shubert Murat theater, Indianapolis, is fraught with more than usual interest to the playgoers of this vicinity. There has not been in recent years so successful a musical play as this in which Miss Dressler unquestionably has scored the crowning triumph of her career. "Tillie's Nightmare" enjoys the distinction of having played continually for three hundred and eighty-nine performances at the Lew Fields Herald Square theater, New York. In the four weeks after leaving the Herald Square in each theater in which she appeared she broke the box office records.

Miss Dressler comes to Indianapolis surrounded by absolutely the same company as was with her during the memorable New York engagement. There are seventy-nine players on the stage while altogether the organization is composed of one hundred persons. "Tillie's Nightmare" is one of the largest and most expensive organizations under the direction of Mr. Fields, who is the most prodigal of musical producers. The play is in two acts and seven elaborate scenes, and over a dozen musical numbers. There are forty dancing and singing girls in the chorus. The engagement in Indianapolis is for Thursday, Friday and Saturday and Saturday matinee, Jan. 26, 27, and 28. Prices, 50c, 75c, \$1.00, \$1.50 and \$2.00.

VETERANS SEEK EXEMPTION.

A bill has been received by Senator Gavitt for introduction in the Upper House to exempt from taxation—to the amount of \$1,200—the homes of all soldiers of the civil and Mexican war who have been bona fide residents of Indiana for at least a year prior to the passage of the proposed act.

MR. SCHOLL NO BETTER.

George Scholl, Sr., who was hurt by a fall in the yard at his home in Fayette county last Friday, does not improve. Last night he was very restless and it is feared that the injury, though it would not have been serious to a young man, will be exceedingly so for Mr. Scholl because of his great age. He is related to Prof. J. H. Scholl, superintendent of the Rushville public schools.

COUPLE IS ARRESTED.

Henry Sage and Addie Harris, formerly of this city, were arrested last Saturday evening in Knightstown by Sheriff Kirk and Deputy Sheriff Yost on a serious charge. They gave bond for their appearance in the circuit court.

—Connersville News: John Frazee, a cousin of L. A. Frazee of this city, who has been here for some days visiting relatives and old friends has gone to Orange and vicinity, where he will remain for a time before returning to his home in Iowa.

—Mrs. A. L. Yakey has returned to her home in Connersville after a visit with her parents, Mr. and Mrs. William Posey and family, living west of the city. While here Mrs. Yakey attended a meeting of the Daughters of the American Revolution and became a member of that organization.

SIMPLIFIES MANDAMUS

Senator Moore Presents Bill to Make Practice Easier.

Senator Moore of Connersville from this, Fayette and Hancock county, yesterday introduced in the Senate a bill which is designed to simplify the practice in the mandamus actions by providing a way for the joining of the issues of facts and law. Senator Moore says the law governing writs of mandate have never been thoroughly modernized since the law was originated in England. His bill provides that such suits shall be filed and shall take the course that other civil actions take under the present law.

BOY DISLOCATES HIS KNEE

Frank Shook of Manilla Slips While at Work.

Frank Shook, son of Robert Shook, of Manilla dislocated his left knee yesterday at the slaughter house of the Shook meat market. Mr. Shook in attempting to step from the door of the slaughter house slipped and fell, twisting his knee. The slaughter house is located on the farm near Manilla owned by Martin Bird of Shelbyville. Mr. Shook suffered a similar injury about three months ago while playing in a game of basket ball. Dr. Green of Manilla attended the injury.

WILL WHOLESALE FLOUR

C. G. Clark and Sons Establish House in Marion.

W. J. Clark, one of the owners of the Rush County Mills, which manufactures the "Indiana Pride" is establishing a jobbing house in Marion, says the Marion Chronicle. He will sell at wholesale to retail dealers. Already many of the leading local grocers are handling this flour, which is highly recommended. Mr. Clark has established his residence for himself and family at 114 South G street. He will soon open an office in the downtown district.

The regular meeting of the Ladies' Musicales was held at the home of Miss Florence Frazee in North Harrison street yesterday afternoon.

Manilla Church Reception.

Seventy-five members of the Manilla Christian church attended the reception given Saturday night for the new pastor, Rev. Carl Burkhardt. A delightful program was given. Refreshments were served and all enjoyed a pleasant evening. A large crowd heard Rev. Burkhardt's initial sermon Sunday morning.

The eight-month-old daughter of Mr. and Mrs. Will Ratliff of Spice-land was buried yesterday afternoon at the Elliott cemetery, south of New Castle. The baby died Saturday night.

FUNERAL OF MRS. FAVOR TOMORROW

St. Paul Woman Lay Unconscious for Three Weeks Previous to Her Death Which Came Yesterday.

SURVIVED BY TWO CHILDREN

The funeral services of Mrs. E. E. Favor, who died yesterday at her home in St. Paul, will be held at the home tomorrow afternoon at two o'clock, conducted by the Rev. T. J. Anthony. Burial will take place in St. Paul.

Three weeks ago Mrs. Favor became the mother of a child who died soon after birth. She had lain in an unconscious condition ever since, and no hopes were given for her recovery. She was forty years old. Besides her husband she is survived by two daughters, Ruth and Gladys.

JIMMY VALENTINE, WARDEN HANDLER AND ROSE LANE.

When a young lad of good parentage and of sound training and education begins to chafe under the restraint of parental discipline it is time for the parents to exercise the wisdom got only from the lessons taught in the great school of the wide, wide world. Theories and principles expounded ever so convincingly will not keep the growing boy at home after 7 o'clock in the evening when there is a chance to escape into the streets to meet the "bunch," the alluring, versatile bunch whose plans so often include the annihilation of the Sioux warriors of the Dakota plains who have laid down the tomahawk to take up the agency clay pipe and store clothes.

That is to say, theories and principles merely will not suffice to restrain the impulsive, imaginative, action craving youths unless the parent combines with them enough knowledge of the world to convince the half formed, half trained youthful mind that the mentor has the best interests of the lad in mind, that he has been through it all himself and knows full well the joys and disappointments, the fears and hopes of early days.

And it is habitually stern, opti-

You have no right to starve. "I eat eat three meals a day," you say. True, but you don't digest them, and you're thin and weak. You need Electric Bitters to strengthen your stomach, aid digestion and assimilation, improve appetite. They'll work wonders for you. 50c, at F. B. Johnson & Co.

Foley's Kidney Remedy An Appreciation.

L. McConnell, Catherine St., Elmira, N. Y., writes: "I wish to express my appreciation of the great good I derived from Foley's Kidney Remedy, which I used for a bad case of kidney trouble. Five bottles did the work most effectively and proved to me beyond doubt it is the most reliable kidney medicine I have ever taken." Sold by F. B. Johnson.

NO MORE GRAY HAIR

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers, and it can be bought for 50 cents and \$1 a bottle at almost any first-class drug store, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

TWO SICKLY CHILDREN

Made Well by Vinol—Letters From Grateful Mothers.

New Haven, Conn.—"My little girl ever since her birth was frail and sickly and nothing seemed to do her any good, until we tried your cod liver and iron tonic, Vinol. As soon as she commenced to take it, I noticed an improvement in her health and appearance. She has now taken three bottles of Vinol and from the good it has done her I can say it will do all you claim for it in building up and strengthening frail and delicate children." (Name furnished on request.)

Another mother of Chicago, Ill., writes: "My little girl was thin, run-down, pale and without any appetite. Vinol gave her a good appetite. Vinol gave her a good appetite,—she has rosy and has gained rapidly in flesh and strength.

"I cannot say too much in praise of Vinol for delicate, ailing children."

We ask every mother of a frail, sickly or ailing child in this vicinity to try Vinol on or agreement to return their money if it does not do all we claim. F. B. Johnson & Co., Druggists, Rushville, Ind.

tinue them you must return home, where I will secure you a position as bookkeeper at your uncle's store."

Signed to this eloquent, brief epistle was the name of the young man's father.

Several years have passed since that crumpled letter was picked up from the floor of the college student's room. Several years have passed since an aged couple, soon to eke out their meed of existence in a small country town, have heard news from the son who would not become a minister.

Several years have passed since a young college student appeared penniless and discouraged in a middle western city and vainly walked the streets for days, subsisting as best he might, in search of any kind of work that strong hands and arms could perform.

So there should be tempered judgment shown, say I, in dwelling on the present fate of Jimmy Valentine when it is considered that he was the ambitious lad who left the crumpled note lying on the floor in his bedroom and set out to fight the world single handed.

That Jimmy should have lost in his first grapple with life should afford no reasonable person ground for reproach. Those of us who have not lost as yet quite humanly perhaps incline toward comparisons which favor our own acknowledged virtues, but at the same time the environment of our fellow beings at critical periods in their lives should always be remembered.

Easy Way to Cure Croup

Children affected with croup, coughs, or sore throat will find the most simple way to cure it, is to insert a small portion of Plex in each nostril and rub the throat and chest thoroughly with Plex before using it the throat and chest should be bathed in hot water. You can get Plex at any drug store for 10c.

Plex taken internally relieves coughs. Why not get it today?

Hargrove and Mullin, Druggists.

bered when the final estimate is made. It is human to have human emotions. It is human to have inhuman ideas concerning some of our fellow men at various times; but, after all, why not adopt the optimistic philosophy of Jimmy Valentine himself? For was it not he who at the time "Frisco Eddie" bungled the "inside job" of a safe looting expedition in Omaha sought to soothe the latter's feelings by saying sympathetically:

"Nobody is a failure until he admits it himself. You will never admit you're a failure, Eddie, so cheer up. You, therefore, can never be one."

Consequently Jimmy Valentine must be given a chance. His doctrine is the doctrine of hope. Give him a chance to apply it to himself and await uncondemningly and dispassionately the result.

If he succeeds in making a man of himself, a man such as his Creator intended him to be, who is there to say that his past has anything in it to concern a critical world? Or who is there to deny to Jimmy Valentine his birthright if he should miraculously redeem it?

But should he fail in the great test—well, perhaps no word should just now be sent regarding him to the old home in the little town, to the father and the mother who would not understand.

TERSE TELEGRAMS

In a blinding snowstorm at Chalons wireless messages were sent and received on an aeroplane at a distance of fifteen miles.

At a caucus of Republican members of the Montana legislature Thomas H. Carter was made the party nominee for senator. This means his reelection.

Dr. Nicholas Murray Butler was elected chairman of the board of trustees of the National Education Society at a meeting of the executive committee in New York.

Charlton M. Beattie, United States district attorney at New Orleans, has been removed summarily by Attorney General Wickersham. Talking is said to be the only charge.

The deadlock in the West Virginia senate has ended and the fifteen exiled Republican senators have returned to Charleston from Cincinnati. The Republicans were allowed to have the president of the senate.

There is much uneasiness in Shelbyville, Ky., in consequence of a statement that the negro, James West, who escaped from the mob Jan. 15, when two other negroes were lynched, will be presented before the grand jury by Governor Willson.

The senate judiciary committee is evenly divided on the merits of the nomination of Judge William H. Hunt of Montana to be judge of the commerce court. By a tie vote the committee, after agreeing to report the other nominations for the commerce court, failed to act on Hunt's nomination.

HERE IS A REMEDY THAT WILL CURE ECZEMA

Why waste time and money experimenting with greasy salves and lotions, trying to drive the eczema germ from underneath the skin when Woleott's Drug Store guarantees ZEMO, a clean liquid preparation for external use to rid the skin of the germ life that causes the trouble? One application will relieve the itching and often times one bottle is sufficient to cure a minor case of eczema.

ZEMO is sold by druggists everywhere and in Rushville by Woleott's Drug Store and they will tell you of the marvelous cures made by this clean, simple treatment. ZEMO and ZEMO soap are recognized as the cleanest and most popular treatment for eczema, pimples, dandruff and all other forms of skin or scalp affections whether on infant or grown person. Will you try ZEMO and ZEMO soap on our recommendation and guarantee of satisfaction or your money back? Woleott's Drug Store.

CATARRH GOES

So Does Sore Throat, Bronchitis, Croup and Asthma.

You can easily tell by reading the symptoms below, whether you have catarrh or not:

Offensive breath, frequent sneezing, discharge from the nose, stoppage of the nose, huskiness of the voice, tickling in throat, droppings in the throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucus, difficulty in breathing, loss of vital force.

Johnson's Drug Store has a sensible remedy (money back if it fails) for catarrh, called HYOMEI (pronounced High-o-me) which is a vaporized air, antiseptic that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life, gives relief in two minutes, and cures catarrh.

The price, including hard rubber pocket inhaler, is only \$1.00. The inhaler will last a lifetime, so that should you need a second bottle of HYOMEI, you can get it for 50 cents. Ask Johnson's Drug Store.

ON ANXIOUS SEAT

Illegal Voting in the Danville Neighborhood May Invalidate Elections.

Danville, Ill., Jan. 24.—What effect the vote buying and selling investigation now going on in Danville will have on the various officials who were elected at the last election and for the last three years, is the question asked by and of every politician and lawyer in Danville. It was said that under the common law, if indictments were returned and conviction secured against any individual who had bought votes for his election, that election would be invalidated and his office be declared vacant. Then the question arose, Who is guilty, and will it affect Speaker Cannon? The statement was made that if Mr. Cannon had contributed to the campaign fund for general purposes and that money had been used for such purposes, his election would be illegal.

Edgar County Stirred Up.

Paris, Ill., Jan. 24.—State's Attorney R. S. Dyas of Paris says he will ask Judge Kimbrough for a special grand jury to investigate vote buying in Edgar county. It has always been said that in no county in eastern Illinois is the traffic in votes more open and extensive than in Edgar county. There are 2,300 voters in Paris and 80 per cent are classed as purchasable.

THE BARRY CASE

Is Now in Hands of Judge Advocate General of the Navy.

Washington, Jan. 24.—Secretary of the Navy Meyer will take action probably in the next few days in the case of Rear Admiral Edward B. Barry, U. S. N., retired, who was recently relieved of command of the Pacific fleet. The record in the case sent by the officers of the flagship which Barry is reported to have attempted to suppress, has reached the navy department by mail. Admiral Barry is now in San Francisco, where he was directed by Secretary Meyer to remain until his case has been disposed of. The papers in the case are under consideration by the judge advocate general.

Some officers of the department may urge Admiral Barry voluntarily to resign his commission as an officer of

A LUNATIC POET SHOOTS AUTHOR

David Graham Phillips Victim of Strange Attack.

SHOT DOWN ON THE STREET

As He Was About to Enter the Prince-
ton Club in New York, Well Known
Writer Was Murderously Attacked
by Fitzhugh Goyle Goldsborough, a
Musician and Poet, Who After Fir-
ing the Shots, Killed Himself.

New York, Jan. 24.—Just as he was
about to enter the Princeton club for
his mail, David Graham Phillips, novel-
ist and magazine writer, was shot
six times and probably mortally
wounded. The shots were fired by
Fitzhugh Goyle Goldsborough, a pro-
fessional violinist, who was a former
student in the academic school of Har-
vard, but who of late has been room-
ing at 112 East Nineteenth street,
where he has been giving violin les-
sons when not writing verses.

After shooting Phillips, Goldsbor-
ough shot himself in the right temple
and dropped dead.

What caused Goldsborough, who was
waiting near the entrance of the
Princeton club at an hour when Mr.
Phillips usually calls there for his
mail, to fire the shots, is not known.
When the wounded man was carried
into the club he was still conscious,
and when asked whether he knew the
man who shot him, he answered that
he did not.

Later it was learned from Harrison
W. Phillips, a brother of David Gra-
ham Phillips, that for some time the
wounded man has been receiving let-
ters, notes, telegrams and telephone
calls of a threatening and abusive na-
ture. Harrison Phillips said that no
name was attached to these commu-
nications, but that in view of the
shooting he supposed Goldsborough
had sent them.

Dr. George E. Maurer also said that
about nine months ago, while Golds-
borough was rooming in Dr. Maurer's
house, Goldsborough had complained
to the doctor that he had a grudge
"against a certain writer," and added
a vague story about being harmed by
this writer in a magazine article some
time ago. Dr. Maurer said that Golds-
borough had always impressed him as
being mentally weak.

Had Received Threatening Message.

When Mrs. Carolyn Frevert, a sister
of Mr. Phillips, who lived with the
novelist in a studio apartment at the
National Arts club, saw her brother at
Bellevue hospital not long after the
shooting, she asked Mr. Phillips if he
knew why he had been shot. He an-
swered that he did not. Then he be-
gan to tell Mrs. Frevert that he had
just received a telegram of a mysteri-
ous nature. He tried to tell his sister
the nature of the telegram, but became
unconscious before she could learn
what the sender of the telegram had to
say.

Surgeons at the hospital made an ex-
amination and found that six steel 22-
caliber bullets from a Colt automatic
pistol had entered Mr. Phillips's body.
All of these bullets except one had
come out of the body, making eleven
perforations altogether.

The most dangerous wound was in
the right side of the chest. This bul-
let had punctured the lung and the
doctors especially fear this wound, as
it may lead to pneumonia. There was
a slight wound of the abdomen below
this wound, and two more flesh
wounds in the right hip. Another bul-
let had torn the flesh of the left fore-
arm and another, the only one remain-
ing in the body, is lodged in the right
thigh. The physicians said that as
the wounds were cleaned promptly
and as the bullets were of steel they
hoped that blood poisoning would not
set in. On the whole they think there
is a good chance for recovery.

When Mr. Phillips came out from
the anesthetic he was in good spirits.
His brother, Harrison W. Phillips, was
waiting for him to recover conscious-
ness, and Mr. Phillips was glad to see
him. He straightway asked his brother
to send a telegram to his mother,
who is in Los Angeles, telling her that
he was in good condition, and not to
worry.

CRAZED OVER POETRY

This Is Opinion of Those Who Knew
Phillips's Assaultant.

Pittsburg, Jan. 24.—Fitzhugh Golds-
borough was one of the first violinists
in the Pittsburg orchestra of last year.
He was a special favorite of Director
Emil Paur of the orchestra, and was
well known, through his eccentricity,
to every music lover in Pittsburg.

Opinion here is that Mr. Phillips
had at some time refused to recognize
Goldsborough as the great poet and
violinist he always insisted he was.

Well Known in Washington.
Washington, Jan. 24.—Fitzhugh
Goldsborough, who shot David Graham
Phillips in New York and killed him-
self, was the son of Dr. Edmund K.
Goldsborough of 1331 K street, N. W.
this city. He was born in 1879. Among
his friends and in his own family cir-

cle here he was known as a dreamer
and a poet. Not only was there no in-
dication of any cloud on the mind of
Goldsborough, but he had already sig-
nified his intention of attending the
wedding of his sister, Miss Frances
Goldsborough, to William F. Stead,

ABE RUEF'S CASE IS TO BE TRIED AGAIN

Whole Voluminous Record Is to Be Reopened.

San Francisco, Jan. 24.—Nearly
three years after his original indict-
ment and nearly two years after his
conviction and sentence to fourteen
years in San Quentin for bribery, Abe
Ruef, once the all-powerful political
boss of 'Frisco has secured a rehear-
ing of his case from the state supreme
court. The effect is practically to
place Ruef in the same position he
occupied when he appealed two years
ago from the sentence of the superior
court, and to give him an indefinite
extension of the liberty he has enjoyed
on bail.

The action of the appellate court on
Nov. 23 in denying Ruef's appeal is set
aside by the higher court, and the
whole voluminous case is re-opened.

found on the coat of Stanesha Se-
mech, Macedonian, arrested as a sus-
pect in the Stanusa Traikovich mur-
der case, have been found to be blood
stains, and the police believe they
have in custody one of the two mur-
derers of Traikovich. Semech is held
without bond, pending the outcome of
the detectives' investigation.

THE LAW.

If we are to have respect for

COUNTRY WIDE ORGANIZATION

A National Republican Progress- ive League Formed.

MR. TAFT'S FRIENDS STARTLED

They Take It to Mean That This Is the
First Step in an Organized Move-
ment on the Part of Insurgents to
Present a Candidate in 1912 in Oppo-
sition to Mr. Taft—New Organi-
zation Doesn't Lack For Funds.

Washington, Jan. 24.—An organi-
zation with which to promote their pro-
paganda from one end of the United
States to the other has been formed
by the Republican insurgents in con-
gress and their followers. The new
organization is to be known as the
National Republican Progressive
League, and the announcement is
made that it will enter on an aggres-
sive campaign for the principles in
which the league's members believe.

Subsidiary leagues will be organized
in each state; headquarters will be
opened in Washington and literature
and speakers will be sent broadcast
over the country. Sufficient money
has been already raised for the carry-
ing on of the movement.

The announcement of the formal or-
ganization of the league startled Mr.
Taft's friends here. They immedi-
ately conceived it to be the first step
in an organized movement on the part
of the insurgents to present a candida-
te in the 1912 Republican national
convention in opposition to Mr. Taft.

Among the officers and directing
members are some of President Taft's
most outspoken enemies, including the
Pinchot brothers and Charles R. Crane
of Chicago, the man who was appoint-
ed minister to China by Mr. Taft and
who was recalled from the post just
about as he was to set sail from San
Francisco. Among the organizers of
the league are nine United States sen-
ators; six Republican governors, and
thirteen Republican insurgent con-
gressmen. Senator La Follette of Wis-
consin has been one of the principal
movers in the league, and the meeting
at which the organization was perfect-
ed was held at his home here. Sen-
ator Jonathan Bourne, Jr., of Oregon is
to be at the head of the league, and
is to have charge of the headquarters
here.

TURNED HIM DOWN

Enoch Arden Plea Failed to Make a Hit With Muncie Woman.

Muncie, Ind., Jan. 24.—When Wil-
liam Finn strolled back into Muncie
fifteen years after he had disappeared,
leaving a wife and two children, his
Enoch Arden plea failed to make a
hit with the wife, who in the mean-
time had married Harry Phillips. The
wife says Finn's mother reported that
he had died in California.

A sympathetic judge who heard her
trial for divorce promptly gave her a
decree and the custody of the two chil-
dren. Mrs. Finn-Phillips, when she
found Finn was still living, sent her
second husband away.

Phillips is now living in Chicago, to
which place the woman and children
will go immediately and where Mrs.
Finn will remarry Phillips.

CANAL FORTS

Naval Experts Not Agreed as to Their Efficacy.

Washington, Jan. 24.—President
Taft has fired another gun in his fight
for the fortification of the Panama
canal. Incidentally the shot went in
the direction of Rear Admiral Evans,
retired, who in a magazine article that
has been referred to in congressional
debates, declared that no amount of
fortification will render the canal of
real value for the passage of a fleet;
after war has been declared or when
war is known to be inevitable.

The White House answer to this
contention is an opinion signed by Ad-
miral Dewey, president of the general
board of the navy, advocating forti-
fications at the termini of the canal.

No Signs of a Break.

Des Moines, Ia., Jan. 24.—The last
joint ballot for United States senator
in the Iowa legislature was: Young,
31; Funk, 21; Kényon, 24; Byers, 12;
Garst, 7; Franke, 2; Porter (Dem.),
47. There are no signs of a break in
the deadlock.

We Save You Money on Every Day Needs

WHAT SPENDING \$100.00 MEANS.

Have you ever stopped to consider seriously the earning power of money?

Do you realize that whenever you spend money foolishly you are not only losing this actual cash in hand, but also the interest that the money might earn for you as long as you live.

For example, suppose you have saved \$100.00. You can put this money into the Bank or you can spend it.

Whether you spend it wisely or not you will lose more than \$3.00 every year for life, for that is what \$100.00 would earn at 3 per cent interest in The Rush County National Bank.

If your expenditure of the \$100.00 is a wise and necessary one, it is probably worth \$3.00 a year even if you live for 50 years longer, but if you are planning to spend that \$100.00 foolishly, our advice to you is don't, but just put it into this Bank and let the 3 per cent compound interest double or treble your capital.

RUSH COUNTY NATIONAL BANK.

COUNTY OPTION IN THE BALANCE

(Continued from First Page.)

ed that the Democratic senators will vote solidly for the amendment and that it will be passed by a margin of eight votes.

Senator Moore made a strong speech in favor of his amendment to the Proctor amendment. He was followed by Senator Voris of Montgomery county, and Senator Wood of Tippecanoe county, Republican floor leaders in the Senate, both of whom made strong arguments against the change to be made in the unit of the present option law. Senator Stotsenburg, Democratic floor leader, made a long speech in favor of the Proctor amendment, which consumed most of the time allowed for debate.

Again the Democratic steam roller in the Upper House overran attempts of the Republican minority to side-track the Proctor option amendment bill yesterday afternoon, though Senator Will R. Wood played another trump against the majority leaders and seemed to have them guessing for a time. Failure to insert the minority report from the Committee on Public Morals in the printed copies of the platform measure was the basis of Senator Woods' attack, and he fought out his case clearly, only to hear the verdict of a strict party vote again silence the minority.

The bill came up for second reading and Senator Wood waited until Lieutenant Governor Hall was on the point of sending it to engrossment before he declared the bill should be referred again to the committee with instructions to incorporate in the printed copy the minority report on the measure, sent in by Senator Jenkins when it was reported from committee.

E. E. Moore of Connersville, elected senator from Rush, Fayette and Hancock counties, was another victim of the Democratic machine when he offered an amendment to the proposed law, providing that the burden of calling elections in present "dry" territories would be shifted from the temperance advocates to the shoulders of the "wets." His proposed amendment asked that in "any incorporated city, township or territory outside of such incorporated city, in which the sale of intoxicating liquors is now prohibited by law by reason of any remonstrance heretofore filed, or election heretofore held, no license shall be granted until and unless at a subsequent election to be held under the provisions of this act, a majority of the qualified voters therein shall vote against prohibiting such sales.

Senator Moore, explaining his amendment said: "This amendment is offered in good faith. We now have the county local option law. You are proposing today to pass a bill, which will compel not only one election to

be held in the county but even a dozen elections in the smaller counties. It is highly unfair to make this law provide that a unit shall go "wet" automatically as soon as the measure goes into effect. If the people of the unit are so anxious to bring saloons back into the 'dry' counties let them do it, but do not take it for granted that they are anxious in all cases. I have never seen a measure during my long experience in this Assembly that has been so apparently non-partisan for special interests against the people as a whole."

"I move that the amendment be laid on the table," said Senator Stotsenburg, as soon as Senator Moore had finished.

Senator Wood then spoke to a question of privilege until interrupted by Senator Kistler, asserting that the Democrats had throughout the session attempted to forestall any well-meant criticism of actions they desired to push through. Lieutenant Governor Hall sustained Senator Kistler's contention that the minority leader was out of order. The Moore amendment was then voted down, 24 to 18.

Senator Stotsenburg then moved to amend the bill, with provisions for a different basis of reckoning the percentage of voters whose names in a petition are necessary to call a special election. One of the amendments provides that where the county local option law necessitates a petition bearing the names of 20 per cent of all the votes cast for secretary of State at the nearest previous election the new basis should consist, in the towns of 20 per cent of the total vote cast for mayor; in townships of 20 per cent of the total vote cast for the secretary of State, and in the territory outside of the city of 20 per cent of the difference between the total vote cast for secretary of State in the township and the total vote cast for mayor in the city. Another amendment provided that the city should pay the expense of the election to be held in its own option contest, while the township stands the expense of its own election and of the election in the territory in the township outside the city.

The amendments were adopted and the bill ordered to engrossment. Senator Proctor slipped a motion, uncontested, by the Republicans to have a third reading of the bill a special order of business for this afternoon at 2 o'clock.

E. S. Shumaker, superintendent, and R. C. Minton, attorney for the Indiana Anti-Saloon League, pressed Democratic members of the house into service yesterday afternoon for the introduction of petitions against a change in the county option law. Shumaker and Minton arrived in the house with pockets bulging with the petitions. None of the Democrats declined to present them. M. E. Thornton, Peter Coble and Adam Wise, sworn foes of the county option law, were among those who complied with the wishes of the Anti-Saloon League attaches. All such petitions were sent to the house committee on morals, where they are now, it is estimated, 75,000 names on petitions, asking that the law be not changed.

***** SPRING IS HERE. *****

There is no doubt about, even though the date may be early, but what spring has arrived in all its glory. The sign is infallible. Ben Adams, while seated in front of the A. L. Aldridge's store today, lit his pipe with his sun glass, which he carries with him all winter, waiting patiently for the day when he can accomplish the feat of today.

***** HE LIKES THE GOV. *****

Former Congressman James E. Watson of Rushville, was a visitor in the senate yesterday on the invitation of Lieutenant Governor Hall, says the Indianapolis News. "Mr. Hall and I are old friends," he explained, "and I just dropped in for a little while to pass the time of day with him. I am going to leave for New York tonight, but will get back in time to give a little dinner at Rushville next week in honor of Lieutenant-Governor Hall."
